

HARIOM KARANDE

Aspiring Python Developer | Software Developer

Ahmedabad, Gujarat | 9662873287 | hariomkarande20@gmail.com | linkedin.com/in/hariom-karande-761272365 | github.com/hariom-karande

PROFESSIONAL SUMMARY

Aspiring Python Developer with a solid foundation in Python, backend development, and object-oriented programming, gained through practical projects involving REST API design, CRUD operations, and relational databases. Experienced in building and testing APIs using FastAPI and Postman, with additional exposure to Java-based backend systems and full-stack development using React.js. Comfortable with Git, GitHub, Docker, and AWS for version control and deployment. A quick learner with a strong grasp of data structures and problem-solving, eager to contribute to scalable, maintainable software as a Python Developer.

SKILLS

Programming Languages: Python, Java, JavaScript, C#, PHP

Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js

Backend & APIs: FastAPI, REST API Development, Spring Boot

Databases: PostgreSQL, MySQL, MongoDB, Oracle Database

Tools & DevOps: Git, Docker, Jenkins, Terraform, AWS, Postman, Kali Linux

Concepts: Object-Oriented Programming, Data Structures, CRUD, Agile Basics

PROJECTS

InternHub – Smart Internship Portal

React.js | Java Spring Boot | MySQL

- Built a full-stack internship portal with role-based access for students and recruiters.
- Developed REST APIs using Java Spring Boot for internship listings, applications, and profile management.
- Designed a responsive React.js front-end with dynamic search and filter functionality.
- Integrated a MySQL database for structured storage of user, application, and internship data.

Food Delivery System

PHP | JavaScript | MySQL

- Built a web-based food ordering platform with user registration, menu browsing, and order placement features.
- Designed a relational database schema in MySQL to manage users, orders, and restaurant data.

Movie Recommendation System

PHP | JavaScript | MySQL

- Developed a recommendation system suggesting movies to users based on preferences and ratings.
- Implemented dynamic front-end interactions using JavaScript for a smoother browsing experience.

Student Task & Assignment Management API

Python | FastAPI | PostgreSQL

- Built a RESTful API using FastAPI to manage student tasks and assignments via CRUD endpoints.
- Integrated PostgreSQL for persistent, structured storage of task and assignment records.
- Implemented request validation and structured error handling for reliable API responses.
- Tested all endpoints using Postman to verify functionality and response accuracy.

EDUCATION

Master of Computer Application

Aug 2025 – Present

Sardar Vallabhbhai Global University – CGPA: 8.5

Bachelor of Computer Application

Aug 2025 – May 2025

Silver Oak University – CGPA: 8.92

CERTIFICATIONS

- Problem Solving (Intermediate) — HackerRank
- Java (Basic) — HackerRank
- Introduction to DevOps — Great Learning
- Open Source Software Security — Linux Foundation (OpenSSF)
- Frontend Developer (React) — HackerRank
- C# (Basic) — HackerRank
