Ahmedabad, Gujarat | +91 8320190035 | siddhihirpara24@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented MCA student skilled in Java, Python, React.js, Spring Boot, and MySQL, with practical exposure to AWS, Docker, Jenkins, Git, and Linux. Experienced in developing and deploying scalable web applications using modern DevOps and cloud practices. Strong analytical and problem-solving abilities combined with a collaborative, growth-driven mindset.

SKILLS

Programming Languages: Java, Python, C, SQL
Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Spring Boot, Node.js, REST APIs
Database: MySQL, MongoDB
Cloud & DevOps: AWS (EC2, S3, IAM), Git, Linux, Terraform, Docker, Jenkins
Core Concepts: OOP, Data Structure, DBMS
Tools: VS Code, GitHub, Postman, Maven, Spring Tool Suite (STS)

EDUCATION

Master of Computer Application (MCA) Sardar Vallabhbhai Global University SEM 1 – CGPA: 9.02 SEM 2 – CGPA: 9.14	2025-2027 Ahmedabad
Bachelor of Computer Application (BCA) SMT. K. S. N. Kansagra Mahila College CGPA: 7.79	2022-2025 Rajkot

CERTIFICATIONS

- The Linux Foundation – Developing Secure Software [Certificate](#)
- AWS Cloud Practitioner Essential – AWS [Certificate](#)
- Cybersecurity Analyst Job Simulation – TATA, May 2026 [Certificate](#)

PROJECTS

Smart Internship Portal | React.js, Spring Boot, MySQL, REST APIs ([Link](#))

- Designed and implemented a Smart Internship Portal serving **3 core functions** (registration, application tracking, and student management) to streamline the internship process.
- Built **4 core modules** — student registration and login, profile management, internship applications, and an admin dashboard — to improve the internship management process.
- Developed **RESTful APIs** using Spring Boot and integrated MySQL for secure and efficient data management across **student and admin roles**.
- Designed a responsive, user-friendly interface using React.js with **reusable components**, following modern full-stack development practices.

Employee Management System | Java, Spring Boot, MySQL, REST API, Maven ([LINK](#))

- Developed a RESTful Employee Management System **using Java, Spring Boot, and MySQL** to manage employee records through CRUD operations.
- Built scalable **REST APIs** using Spring Data JPA, Hibernate, and MVC architecture for efficient data management.
- Integrated **MySQL database with JPA** for seamless data persistence and optimized backend performance.
- Tested and validated **REST APIs using Postman**, ensuring reliable application functionality.
